Leone & Keeble
West 108 Boone Avenue
PO Box 2747 Spokane, WA 99220

Dear Paul;

Lewis-Clark State College has had a long and productive relationship with your firm and its predecessors. You were General contractor for our Library, for conversion of the old Library into Reid Hall, the Williams Conference Center, and most recently the 106,000 square foot Activity Center.

Each job has been professionally approached and ably completed. Change order estimates from Leone & Keeble are reasonable and project administration reliable and timely; their schedules are useful. Because our projects must conform to the bureaucratic demands of the Idaho Department of Public Works, Leone & Keeble comes through with patience and accuracy.

While we have had the opportunity to work with you and your experienced staff through the bid process in the past, I understand you are an experienced and successful Design/build contractor as well.

Count me as a very favorable reference for you and your staff personally and Leone & Keeble as a company.

Sincerely

Scott Brown
Director
