To Whom it May Concern:

In January of 1996 the City of Moses Lake awarded bid to Leone and Keeble, Inc. for the construction of a new Headquarters Fire Station and training facility. Construction began in April and was completed in January 1997 within the contract specified time frame. As the City's representative on the project I worked extensively with both the Superintendent and the Project Manager. It became obvious at the onset of the construction that one of Leone and Keeble's goals was to produce a quality product that we would be pleased with. Their commitment to this objective was demonstrated many times during the course of the project.

Our experience has shown that Leone and Keeble was very accommodating and reasonable with change orders, the large majority of which were owner requested. Follow up work such as punch list items and warranty work were all completed in a timely manner and to our satisfaction.

I would not hesitate to highly recommend Leone and Keeble, Inc. for any project that they would seek.

You may contact me at (509) 765-2204 if you have any questions about the project or if you would like to schedule a tour of our facility.

Sincerely,

A handwritten signature in black ink, appearing to read "David A. Helms". The signature is fluid and cursive.

David A. Helms, Fire Chief  
Moses Lake Fire Department
